available for groups of up to 20 support staff

## **What is NLP?**

### **The difference that makes the difference!**

Neuro-Linguistic Programming (NLP) is an extremely powerful system which can transform relationships and lead to real and lasting benefits in leadership transactions, and in the quality of teaching and learning.

Originally developed as a system for identifying and modelling the behaviour and abilities of the world's most excellent people, NLP has developed into a widely used and scientifically acknowledged set of processes with huge benefits for schools.

Our INSET programmes are designed specifically for your school and can take place on INSET days, during twilight sessions or as an ongoing series of 'occasional' inputs. A typical programme might include:

- Making Every Communication Effective!
- Establishing and Maintaining Rapport
  - Eliciting Preferred Learning Styles
- Eliciting and Understanding Learning Strategies
- Transformational Strategies for Dyslexics and ADD/ADHD
  - Learning How to Pace and Lead Behaviour
- Deal With Difficult People Using Meta-Model Linguistics

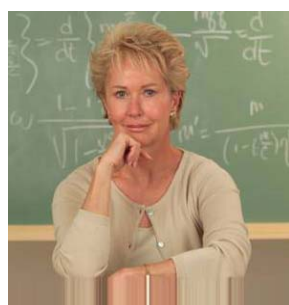

**From As Little As Only £300** our INSET programmes represent fantastic value for money!

**Our High-Activity, High-Impact Trainings** are great fun, easy to learn, and really effective where it counts – in your school.

**Book A No-Obligation Consultation Today** and see for yourself the difference which NLP can make in *your* school.

Book online at [www.360group.org.uk](http://www.360group.org.uk) or email [info@360group.org.uk](mailto:info@360group.org.uk)

**All 360 Group NLP trainings are delivered by Certified Practitioners of NLP and members of the Academic Institute of Neuro-Linguistic Programming, the UK's principal governing body for NLP.**

The 360 Group is an association of former headteachers from both the maintained and independent sectors, academics, senior local authority officers and Ofsted inspectors. Deploying our unique range of improvement programmes, support and consultancy across the UK, in Canada and the USA, we are united in our drive to disseminate best practice, to provide schools with leading-edge solutions, and to raise standards in teaching and learning.
